The Technical Division is an organization of the technical staff which supports research facilities of IMS. The technical staffs are assigned to support the research by using their professional skills of mechanical engineering, electrical engineering, instrumental analysis, optical technology, computer engineering, cryogenic technology, and the synchrotron technology, *etc.*

In addition, the Technical Division supports IMS facilities

by managing Safety Office, Research groups, Public Affairs Office, Archives and Information Office.

The annual meeting for technical staff of research institutes and universities in Japan was organized in 1975 and since then the meeting has been regularly held every year. We aim toward the higher technology and exchange discussion concerning various technical problems related to our technology.
