

What does a publisher do?

- from submission to publication and beyond -

Dr. Hiromitsu Urakami

RSC Manager,
Royal Society of Chemistry Japan

Date & Time: 2016/11/30 (Wed.) 16:00-
Place: IMS Research Building Room 201

What does a publisher do? What happens to manuscripts after submission? This talk aims to provide basic knowledge about Scientific, Technical and Medical (STM) publishing and publishing processes.

An overview of the Royal Society of Chemistry publishing will be presented, with a particular focus on our publishing activities that supports the global scientific community. This talk will cover a broad spectrum of topics such as; role of a publisher/editor, publishing-related statistics, bibliometrics, our process to publication, and some tips and guidelines for preparing a manuscript. We hope that this talks provides an opportunity for students and researchers to have deeper understanding about publishing and its current landscape.
